INNOVATION IS ABOUT...

...OVER RIDING RISK

MOX FILM

MOX comprises of biaxial oriented layers of plastic film bonded to one another in the machine operating direction, transverse and angular axis all together in 16 directions bonded by a cold roll technique. It has various usages in industries such as Agriculture, Infrastructure Packaging, Commercial Vehicles and many more.

ABOUT US

Ever since we began our journey, we have consistently leveraged opportunities to build a sustainable and value-creating enterprise. The result is that we have now emerged as a leading polymer based innovative products company.

Innovation begins with us, or rather we can say that we began with innovation. Way back in 1992, the founder promoters of Time Technoplast Limited (TimeTech) had a vision to innovate with the conventional ways of packaging by making use of durable material that is environmental friendly. Thus began an intensive journey of research to make use of a material that can adapt to different states of matter, which is durable and long lasting and safe and secure to use.

The vision "Bringing Polymers to Life through Innovation and Technology" led to the use of Polymer (poly means many and mer means parts) as a material for different industrial and commercial applications. Since then, TimeTech has been developing innovative solutions and products that address the polymer needs with products in Industrial packaging, Composite Cylinders, Mox Film, Infrastructure, Lifestyle product, Automotive Components, and Material Handling.

True to its vision, TimeTech brings the entire universe of Polymers to Life. The product offerings of the group consists of established products like : Industrial Packaging (TechPack – Drum & Jerry Cans, Coni Pails for pails), Infrastructure (Max'M for PE Pipes, & DWC Pipes, FastTrac for prefab shelters, Maxlife for batteries and Dumpo Bins for refuse bins), Lifestyle (DuroTurf, DuroSoft, Meadowz, for entrance matting) Automotive (3S for anti-spray flaps, TechDAT & TechTank for Fuel Tanks) and Value Add Products such as: Intermediate Bulk Containers (GNX), Composite Cylinder (LiteSafe) & Multi layer multi axis i Oriented X cross Laminated Film (MOX).

What has really helped Time Tech to become pioneers, trend-setters and market leaders in the rigid industrial polymer packaging industry is the focus on innovation and fast adaptation of modern technology to enhance and enrich its product portfolio. Time Tech's LiteSafe Composite LPG Cylinders is another example of avant-garde product that is revered by the experts, clients and packaging fraternity. LiteSafe Composite Cylinders will revolutionize the way India is making use of LPG cylinders. LiteSafe Cylinders are extremely safe to use during transit, light in weight and capable of preventing any undue damage to lives by providing adequate safety features.

The product portfolio of Time Tech consists of pioneering products that are designed according to international standards of quality offering versatile usability which is unprecedented in India. The high manufacturing standards and quality consistency has helped Time Tech to always exceed the client's expectations who look for cutting edge technology and innovative solutions from the company.

Time Tech has taken the path of organic and inorganic growth in a journey beyond two decades due to its focus on innovation. For us, Innovation is not only creating new products but increasing efficiency, using empowering technology, providing timely wisdom and overcoming fears in times of crisis.

Today we have operational foot prints in 10 countries India, UAE, Bahrain, Egypt, Thailand, Vietnam, Malaysia, Saudi Arabia, Indonesia and Taiwan. We are happy to share our philosophy of innovation and our continuous journey of success.

INNOVATION IS ABOUT...

...SURMOUNTING CHALLENGES

COMPOSITE CYLINDER

LiteSafe Composite Cylinder is a strong alliance between safety and innovation. LiteSafe Cylinders are superior alternatives to traditionally used metal cylinders. These cylinders are extremely lightweight, attractive in color and shape, rust and corrosion proof, UV resistant and most importantly are 100% explosion proof. LiteSafe Cylinders are the first of its kind to be manufactured in the Asian continent.

COMPOSITE CYLINDER

THE PEOPLE WHO MANAGE TIME

BOARD OF DIRECTORS

Mr. K. N. Venkatasubramanian	Chairman (Non- Executive & Independent)
Mr. Anil Jain	Managing Director
Mr. Bharat Vageria	Whole Time Director- Finance
Mr. Raghupathy Thyagarajan	Whole Time Director- Marketing
Mr. Naveen Jain	Whole Time Director- Technical
Mr. Sanjaya Kulkarni	Director (Non- Executive & Independent)
Mr. M.K. Wadhwa	Director (Non- Executive & Independent)
Mr. Praveen Kumar Agarwal	Director (Non- Executive & Independent)
Ms. Triveni Makhijani	Director (Non- Executive & Independent)
Mr. Niklank Jain	VP-Legal & Company Secretary

INNOVATION IS ABOUT...

...TIMELY WISDOM

INDUSTRIAL PACKAGING

We are a leading producer of rigid industrial packaging products and offer a wide range of rigid products i.e. HM-HDPE drums, Jerry-cans, Pails and Intermediate Bulk Containers (IBCs).
