		• Civil Engineering	
		• Turn-key Projects	

## LETTER TO SHAREHOLDERS

Dear Shareholder

With the wind of liberalisation in 1991, I realised that in future 'size' is going to play a dominant role and smaller organisations shall be marginalised. We laid emphasis on growth and today Trident has made a respectable place for itself. In 1991 we had manufacturing facilities of 66,000 tpa Single Super Phosphate and 1,00,000 tpa Sulphuric Acid and today we have manufacturing facilities of 1,32,000 tpa Single Super Phosphate, 1,00,000 tpa Sulphuric Acid, 27,918 tpa Writing and Printing Paper, 12,647 tpa Chemical Recovery, 9 MW Power, 68,688 Spindles of Cotton Yarn, 4,767 tpa Processing of Yarn, 3,032 tpa Terry Towels, 13,500 tpa Acetic Acid, 3,000 tpa Ethyl Acetate, 4,500 tpa Acetic Anhydride, 2,100 tpa Butyl Acetate, 192 tpa CMIC Chloride and Information Technology services etc. In 1991 the turnover of the Group was Rs. 4,815 lacs and for the year 1999 it was Rs.32,163 lacs, with a projection of Rs. 55,589 lacs for the year 2000.

After passing through a period of fast growth we are now on the path of consolidation. Abhishek Spinfab Corporation Limited - a Yarn Processing and Terry Towel manufacturing unit- has been amalgamated in Abhishek Industries Limited, leading to consolidation of operations and value addition from cotton to towels. For the year 2000 we have chosen four special emphasis areas i.e. Aggressive Marketing, Cost Reduction, Consistent Quality and Team Building. In addition to this, the job allocation of each member is being reviewed.

We have given due priority to transparency, disclosure and improvement of corporate governance. Further, to improve corporate governance at the operational level, we have constituted an Executive Board of 6-7 senior members in each Unit to review the operations on monthly basis.

I am happy to inform you that the toweling products have been well accepted in the export market and it has given wide exposure to the Group at the international level and the export of the Group has increased from Rs. 146 lacs in 1991 to Rs. 6,662 lacs in 1999 i.e. 21% of the Group turnover.

With our growth oriented philosophy and customer oriented approach, we have reached upto this stage where we are more confident and very optimistic about our future. In the near future we plan to focus on optimisation of capacities and Information Technology as well as to look out for strategic partners for global presence and global positioning with brand equity.

After a long recessionary period the Indian economy is turning the point. With the improvement in economy, coupled with the results of our operational improvements, we are confident to do much better in the year 2000 and the shareholders can look for better prospects.

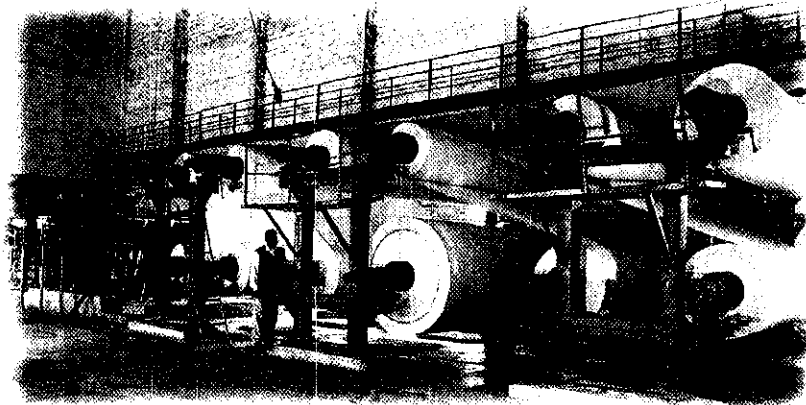

**Rajinder Gupta**

## TRIDENT GROWTH PATH

### VARINDER AGRO CHEMICALS LIMITED

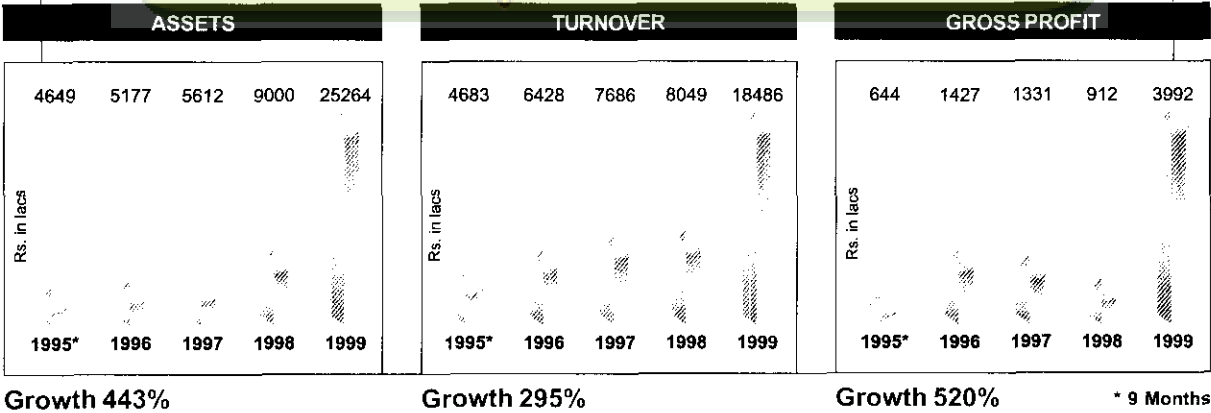

Year	Milestone
<b>1985</b>	Single Super Phosphate - 66,000 tpa Sulphuric Acid - 33,000 tpa
<b>1989</b>	Sulphuric Acid capacity increased from 33,000 tpa to 50,000 tpa
<b>1991</b>	Sulphuric Acid capacity increased from 50,000 tpa to 1,00,000 tpa
<b>1994</b>	Diversified into Writing & Printing Paper with 23,760 tpa capacity
<b>1996</b>	Single Super Phosphate capacity increased from 66,000 tpa to 1,32,000 tpa
<b>1996</b>	Paper capacity increased from 23,760 tpa to 27,918 tpa
<b>1999</b>	Chemical Recovery 12,647 tpa and Co-Generation Power of 9 MW
<b>Project in hand</b>	Kraft Paper project of 23,760 tpa at a capital outlay of Rs 3,240 lacs

ABHISHEK INDUSTRIES LIMITED

Year	Milestone
1993	No. of spindles 17,280
1995	Capacity increased from 17,280 spindles to 25,344 spindles
1996	Capacity increased from 25,344 spindles to 32,400 spindles
1998	Capacity increased from 32,400 spindles to 36,432 spindles
1999	Capacity increased from 36,432 spindles to 68,688 spindles
1999	Forward Integration into processing of yarn of 4,767 tpa & manufacture of terry towels of 3,032 tpa by amalgamating Abhishek Spinfab Corporation Limited with the Company
Projects in hand	<ul style="list-style-type: none"><li>• Expansion of capacity from 68,688 spindles to 75,792 spindles at a capital outlay of Rs 1,500 lacs</li><li>• Installation of six combers at a capital outlay of Rs. 600 lacs</li><li>• Increase in capacity of fabric dyeing from 5.5 tpd to 10.5 tpd at a capital outlay of Rs. 562 lacs</li></ul>

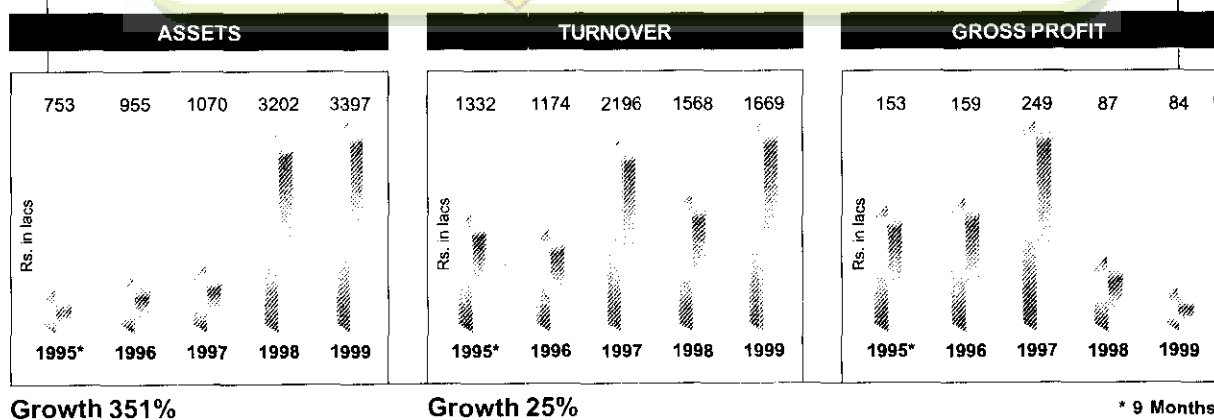

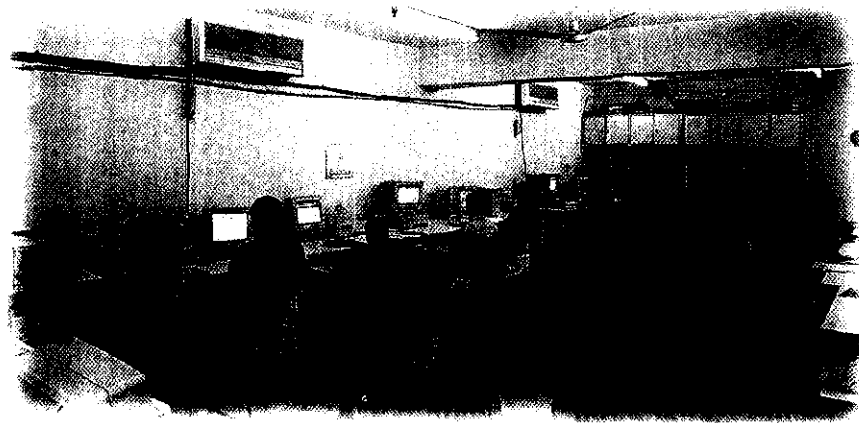

## TRIDENT ALCO CHEM LIMITED

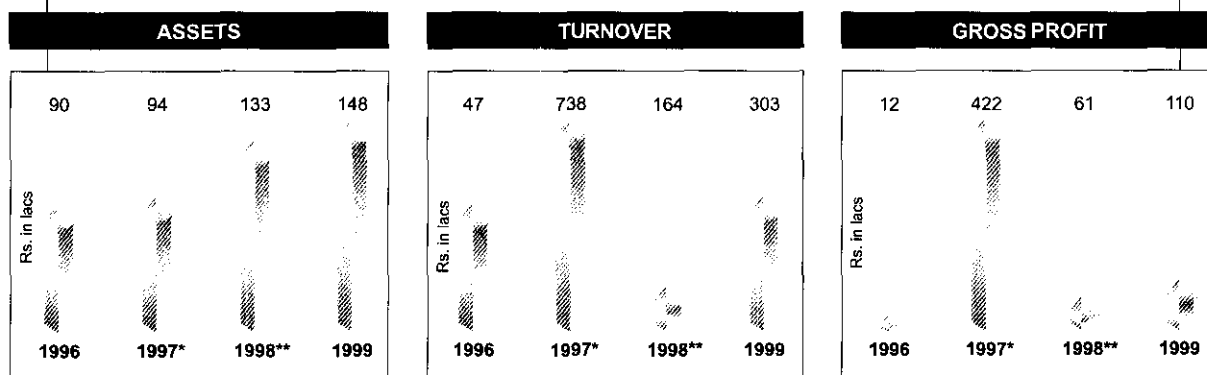

Year	Milestone
1991	Acetic Acid - 4,500 tpa
1996	Ethyl Acetate Plant of 3,000 tpa commissioned
1997	Increased capacity of Acetic Acid from 4,500 tpa to 7,500 tpa
1998	Increased capacity of Acetic Acid from 7,500 tpa to 13,500 tpa
1998	Acetic Anhydride Plant of 4,500 tpa commissioned
1999	A project of Butyl Acetate of 2,100 tpa commissioned
<b>Project in hand</b>	Project of Ibuprofen with a capacity of 600 tpa is being set up

**TRIDENT INFOTECH CORPORATION LIMITED**

Year	Milestone
1996	Started operations in IT Services
1996	Entered into Strategic Alliance with Microsoft, USA as Microsoft Certified Solution Provider & Authorised Trainer
1997	Entered into Strategic Alliances with: <ul style="list-style-type: none"> <li>Autodesk Inc., USA as Authorised Training Centre for Auto CAD &amp; related products</li> <li>Oracle Inc., USA as Qualified Value Added Alliance Partners</li> </ul>
1998	Entered into agreement with ESPL, Mohali for jointly taking up the turn-key projects
