### OPERATION AND OUTLOOK:

During the year under review, demand for companies products showed an improvement and thus the sales and other receipts increased by 25%, YOY to Rs. 72951.1 lakhs and Loss after tax increased from Rs. (8440.7) lakhs to Rs.(14607.9) lakhs mainly due to reduction in the operating margins.

The production of finished Steel in the country during the year witnessed a growth of 3.1% (Previous year 4.6%) over previous year and the import of finished steel registered an increase of 3.5%. Finished Steel consumption in the country increased by 7.92% over previous year. Introduction of Minimum import price during the last year by the Government of India resulted in reduction of imports and thus improved offtake of manufacturing flat steel products from the Indian Manufacturers. This also helped steel manufactures making flat products improve the profitability. Our product being in the long product segment did not benefit out of this policy

The II power plant which became operational during the FY18 could not be operated to the full capacity with the power demand and supply situation in Tamil Nadu eased substantially and the state became a power surplus. This situation of excess supply over demand led to the underutilization of the enhanced capacity and mostly remaining unremunerative at the prices realizable at sales through Open Access. The operations of the Synthetic division showed reduction of about 21% over previous year.
