REPORT ON CORPORATE GOVERNANCE

A separate report on Corporate Governance alongwith the Auditor's Certificate on its compliance is annexed to this Report.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Industrial Structure and Development.

India is the largest producer of Tea in the world, producing about 956 million Kgs representing 27% of World Production. Of the total production in India over 50% is produced in Assam. The Tea Industry plays a vital role in the Indian Economy by way of contributing valuable foreign exchange and providing employment to vast work force in remote areas.

Over the last 5 years import of Tea has increased without any significant increase in exports. This lead to fall in price realization which has adversely affected the industry.

The Company produced 14.19 Lacs Kgs Tea during the year under review as compared to 12.76 Lacs Kgs. in the previous year.

Opportunities, threats, risks & concern.

The Company has one Tea Estate together with own processing unit. Your company is committed to improve quality. Although tea continues to enjoy the status of being a popular beverage in the world, it is facing tough competition from other beverages like coffee etc. However the huge domestic market and the low per capita consumption of Tea by Indians offer a significant opportunity for the Tea Industry in India. Tea is now also being promoted as a Health Drink and offers significant opportunities for increase in consumption worldwide.

Outlook.

The health of our industry depends to a large extent on the geographical conditions which are outside the realm of the control of the Company. The Tea Industry is a highly labour intensive. The wages of workers are determined according to periodic wage settlement agreement which often increase the labour cost to a significant extent irrespective of any improvement in productivity and realization. World production has increased significantly in Kenya in the first half of 2007 which is a major CTC Tea producer. This may adversely effect export of CTC Tea from India.

Internal Control system and their adequacy.

The Company has an adequate internal control system to ensure proper and efficient use of the Company's resources, their protection against any unauthorised use, accuracy in financial reporting and due compliance of the Company policy procedure as well as the statutes. Statutory and Internal Auditors also review its implementation and progress at periodic intervals and take corrective action where any shortcomings are identified. The Audit committee similarly reviews the internal control system and provides guidance for improvement.

Finance & operational performance

The year 2006-2007 was another difficult year for the Indian Tea Industry. However due to improvement in price realization, increase in production and cost cutting measures undertaken by the Company operational profit before

depreciation, interest and taxes for the year was Rs. 91.41 Lacs compared to loss of Rs. 60.52 Lacs during the previous year. Steps are being taken by the Management to improve the quality of tea and increase production, The Company has now fully shifted from oil firing to Natural Gas firing which has helped in reducing cost.

Human Resources and Development.

The Company have around 1500 employees employed on the Tea Estate. The Labour Welfare Officer employed specifically for the purpose to monitor the welfare of the workers.

Your Company runs one Hospital and two dispensaries at its out divisions providing Medical Care to the Employees.

Personnel

The Industrial relation remains satisfactory for the year under review.

ACKNOWLEDGEMENT:

The Directors wish to express their appreciation to all officers, members of staff and workmen of the Company for valuable services rendered and dedication exhibited by them. They also express their gratitude to Tea Board and Bankers for their co-operation and support extended to the Company and express their thanks to Shareholders for their confidence and understanding.
