MANAGEMENT DISCUSSION AND ANALYSIS REPORT**Industrial Structure and Development.**

India is the largest producer of Tea in the world, producing about 988 million Kgs annually representing 40% of World Black Tea Production. The Tea Industry plays a vital role in the Indian Economy by way of contributing valuable foreign exchange and providing employment to a vast work force in remote areas.

During 2011 the Tea production in India was 988 million kgs. against 967 million kgs. in the previous year. Increase in production compared to previous year is due to ideal weather condition upto October, 2011. Strong consumption growth, low inventory and normal production has helped in maintaining the price in domestic market.

The Company has one tea estate together with own processing unit. Your company is committed to improve quality. Tea continues to enjoy the status of a popular beverage in the world. The huge domestic market offers a significant opportunity for the Tea industry in India. Tea is now also being promoted as a health drink and offers significant opportunities for increase in consumption world wide. Increase in demand of orthodox Tea in Foreign countries should have a positive impact on export.

Outlook.

The health of our industry depends to a large extent on the geographical conditions which are outside the realm of the control of the Company. The Tea Industry is a highly labour intensive. The wages of workers are determined according to periodic wage settlement agreement which often increase the labour cost to a significant extent irrespective of any improvement in productivity and realization. Dry weather condition across all tea producing countries have effected the production during the 1st quarter of 2012-13. Tea production in India is lower upto July 2012. The average sale price has increased in comparison to the previous year. Barring unforeseen circumstances the Company expects satisfactory working results.

Internal Control system and their adequacy.

The Company has an adequate internal control system to ensure proper and efficient use of the Company's resources, its protection against any unauthorised use, accuracy in financial reporting and due compliance of the Company policy procedure as well as the statutes. Statutory and Internal Auditors also review its implementation and progress at periodic intervals and take corrective action where any shortcomings are identified. The Audit committee similarly reviews the internal control system and provides guidance for improvement.

Finance & operational performance

During the year 2011-2012 the company reported a net sale of Rs. 19.53 Crores and net profit for the year ended 31st March 2012 after tax of Rs. 1.34 Crores. This is lower than the previous year mainly due to less production of about 1.30 million kgs and increase in wages and other input costs. The Management took necessary steps to reduce debts to save on interest cost. Steps are also being taken to improve quality and increase production.

Human Resources and Development.

The Company has around 1500 employees employed at the Tea Estate. The labour welfare officer employed specifically for the purpose monitors the welfare of the workers.

Your Company runs a hospital, ambulance and dispensaries at its out divisions providing medical care to the employees.

Personnel

The Industrial relation remains satisfactory for the year under review.

ACKNOWLEDGEMENT:

The Directors wish to express their appreciation to all officers, members, staff and workmen of the Company for valuable services rendered and dedication exhibited by them. They also express their gratitude to Tea Board and Bankers for their co-operation and support extended to the Company and express their thanks to Shareholders for their confidence and understanding.
