DIRECTORS' REPORT

To the Members of the Company for the year ended 31st March 2008

The Board of Directors present the Twentieth Annual Report together with the Audited Accounts of the Company for the year ended March 31, 2008.

1. FINANCIAL HIGHLIGHTS

	Year ended 31.03.2008 (Rs. in lacs)	Year ended 31.03.2007 (Rs. in lacs)
Sales (Net of Excise duty)	520.13	4276.08

Profit/(Loss) before tax and extra-ordinary items	(1837.12)	(1343.92)
Extra-ordinary items	-	(39.45)
Fringe benefit tax	3.18	5.93
Deferred tax	2935.50	-
Profit/(Loss)	1095.19	(1389.30)
Loss brought forward from previous year	(6251.58)	(4862.27)
Less: Adjustment for reduction of Share Capital	3710.47	-
Balance carried to Balance Sheet	(1445.92)	(6251.58)

2. OPERATIONS

During the year under review, the Company produced 586 MT of EPDM as against 3657 MT in the previous year. The production decreased by about 84% as the plant operations could not be stabilised after fire incident.

The Company sold 431 MT in the domestic market against the 3091 MT in the previous year and exported 6 MT only. Though the sales realisations improved over the previous year, the margins were adversely affected due to abnormal increase in the input costs. The problem was further aggravated due to requirement of additional working capital, which could not be arranged. Consequently, the production was suspended in October, 2007.

3. RESTRUCTURING:

Pursuant to the terms of Restructuring Package approved under Corporate Debt Restructuring Mechanism (CDR) by the CDR Empowered Group, the Company had filed a Petition with Hon'ble High Court of Judicature at Bombay for reduction of the issued and paid up equity capital of the Company by 70% from Rs.53,00,66,650 Equity Shares of Rs.10/- each fully paid up to Rs.15,90,19,990/- divided into 1,59,01,999 Equity Shares of Rs.10/- each fully paid up. The said Scheme has been approved by the Hon'ble High Court of Bombay and accordingly, fresh shares were issued in the ratio of Three (3) Equity Shares of Rs.10/- each against every Ten (10) Equity Shares of Rs.10/- each held.

The Company had approached its lenders with a proposal to rework the CDR package in the light of the changed circumstances following the fire accident and cessation of plant operation. At the instance of the lenders, a Techno-Economic Viability study was carried out by a reputed international consulting firm which concluded that under the subsisting circumstances of volatile raw material costs and downward pressure on the product prices, the operations of the Company are not viable and are not very encouraging. The Company is now in the process to work out alternate restructuring proposals, including reduction of debt, unlocking of asset values and diversification.

In order to restrict its recurring liabilities, the Company has declared closure under the relevant provisions of The Industrial Disputes Act, 1947 effective from June 26, 2008. The Employees' Union has approached the Industrial Court and the matter is pending. The management has been advised that the closure is in line with the legal provisions.

4. EMPLOYEE RELATIONS:

Employee relations continued to be cordial during the year under review.

5. PARTICULARS OF EMPLOYEES

As per provisions of Section 217(2A) of the Companies Act, 1956, read with Companies (particulars of Employees Rules, 1975, as amended the name and other particulars of the employee as on 31.3.2008 is given below:-

20TH ANNUAL REPORT 2007- 2008

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

a. Industry Structure and Developments

Unimers India Ltd. is the only manufacturer of EPDM in India. The technology has been received from the world renowned erstwhile M/s. Uniroyal Chemical Co. of U.S.A. The EPDM grades (Trade name 'Herelene') manufactured by UNIMERS INDIA LIMITED are suitable for a wide range of applications.

b. Opportunities and Threats

The Company used to command a significant share of the domestic market. However, the suspension of operations for nearly nine months after the fire accident in October 2006, coupled with competition from EPDM manufactures located in US, Europe, Brazil, steep increase in raw material prices and consequent erosion of working capital, resulted in low capacity utilization in 2007-08. The volatile crude prices scenario, which has a direct impact on the prices of the Company's raw materials, coupled with the global downturn and liquidity crisis, does not augur well for the Company's business in the near term.

c. Risks and concerns

Hardening prices for refinery products like Ethylene, Propylene and Furnace Oil would influence EPDM production cost. The high debt portfolio and shortage of working capital is another cause for concern.

d. Internal Control Systems and their adequacy

The Management has ensured that necessary internal control systems are created and maintained in all departments. These internal control procedures are adequate and commensurate with the size of the Company and nature of its business. The statutory and internal audits carried out by professional and reputed external agencies have not highlighted any major discrepancies, omissions and the like.

e. Financial and Operational Performance

After the fire accident of October 2006, there was severe stress on the working capital availability. With the help of some working capital limits released by banks and advances received from distributors, production operations were resumed from June 2007. However, because of unfavourable input price situation as well as lower than desirable sales realizations as a consequence of availability of cheaper imported materials, operations had to be suspended from October 2007.

f. Outlook

The Company was forced to suspend production activity from October 2007 because of non-availability of adequate working capital, steep increase in input costs and availability of cheaper imported EPDM. The Company had approached its lending banks and institutions for a reworking of the CDR Package, but in view of the volatile crude price scenario and other market uncertainties, the lenders were unable to accept the Company's proposals. As the business outlook for EPDM Rubber in the immediate future is not very positive, the management is actively exploring various restructuring alternatives.

g. Material Developments in Human Resources / Industrial Relations fronts

Employee relations continue to be cordial. Training and Development activities are identified, organized and progress monitored as part of Human Resource Development activities.
