## OPERATIONS

The year under review saw a significant increase in both sales and profits over the previous year, this inspite of the fact that overall economic recovery continued to be slow and elusive. Sales registered an 18% growth and profit for the year more than doubled over the previous year to Rs. 315.16 lacs.

Our thrust in recent years to focus on the automotive sector through enlargement of our customer base and diversification of our product range continues to contribute significantly to your company's growth. It is a matter of satisfaction that we now supply well over a hundred components of moulded carpets, trims, NVH parts, heatshields and roof lining material to virtually every car manufacturer in the country. We have also received approved vendor status for supply of such parts to most new motor car models to be launched in the near future.

Your company's range of other products viz. wall-to-wall carpets, interlinings and cover stocks continue to battle against small scale manufacturers and against low priced imports. However, a recent detailed study has identified sales strategies and cost control measures that will enable growth in sales and contribution of these products. Sales volumes of loop pile carpets imported and marketed by us continue to grow.
