OPERATIONS

The Company has recorded a strong growth in sales in the financial year 2009-10. Overall sales increased by 31% over the previous year, although sales of the flooring division declined by 10%.

The pre-tax profit increased by 189% to Rs.592.81 lakhs, while the profit after tax increased by 651% to Rs. 464.28 lakhs. This performance should be viewed in the light of the extremely challenging business environment which the Company faced in 2008-09 on account of the decline in demand for cars resulting from the overall economic slowdown witnessed during that year.

The Company continues to invest in new technology and assets to make available adequate manufacturing capacities for the growth that it expects in the forthcoming years.

In its relentless pursuit of "customer delight" through manufacture of world class products at competitive prices, the Company has adopted Total Productivity Management (TPM) techniques in production. Lean manufacturing has been pursued diligently for improving efficiencies, productivity & yield. New product development has been a thrust area and several greener, recyclable and lighter products that have been launched in the past now contribute steadily to the Company's turnover and profits. We continue to lay emphasis on safety and health, quality systems and cost reductions through VAVE. Institution of energy audits and implementation of the recommendations to optimise energy consumption, as well as strict control over overhead costs is also given due importance.

FUTURE PROSPECTS

Automotive growth is expected to be robust during 2010-11, and the long term outlook continues to be positive because of the low per capita ownership of 7 cars per 1000 persons in India. With global car giants looking for low cost production countries to contain costs, India is becoming a hub for small cars, as well as for outsourcing of auto components. Our Company is poised to participate in this growth story through its existing wide range of products which it supplies to most car manufacturers in India. The Company's order book shows a healthy growth with sales having commenced for the recently launched models of Maruti, Honda, Hyundai and Tata Motors. The Company anticipates cost pressures, but plans to maintain its margins through improved productivity, cost reductions, VAVE measures and focus on high value added products.

JOINT VENTURE WITH JUKEN TECHNOLOGY LIMITED, SINGAPORE

Your Company had incorporated a joint venture company namely "Juken Uniproducs Private Limited" under the shareholder's agreement entered into with Juken Technology Limited, a Singapore based company in the year 2005-2006. This Company commenced commercial production on July 31, 2006. During the financial year ended March 31, 2010, it has achieved gross sales of Rs. 533.18 lakhs and profit before tax of Rs. 97.98 lakhs on the basis of unaudited results. The Company's product have been well received by the customers in the Indian and overseas markets, and your Directors are confident that this joint venture will make good profits in the coming financial year.

DIVIDEND

Your Directors are pleased to recommend a dividend of 16% for the year ended March 31, 2010.

CLOSURE OF NASIK UNIT

The Company had set up a small manufacturing unit at Nasik on rented premises to cater to the west based OEMs viz. Mahindra & Mahindra and Tata Motors. However, despite best efforts and marketing initiatives, business from these customers has not grown over the years.

Keeping in view the expenses incurred to maintain this facility and the possibility of economies of scale and resultant savings that can accrue by consolidating these operations at its Rewari Plant, the Company decided to close down its operations at Nasik and shift all equipment to the Plant at Rewari.

DELISTING OF SHARES

On the basis of the Securities Appellate Tribunal order dated August 20, 2008 allowing the Company to delist its equity shares from the Bombay Stock Exchange at the Rights Issue Offer Price of Rs. 40/- per equity share in pursuance of Clause 17(1) & 17(2) of the Securities and Exchange Board of India (Delisting of Securities) Guidelines, 2003, the Company has completed the delisting process and has been delisted from the Bombay Stock Exchange with effect from July 1, 2009.

ALTERATION OF MAIN OBJECTS CLAUSE OF MEMORANDUM OF ASSOCIATION

In order to diversify the activities of the Company and make it more resilient, your directors had proposed to expand the existing range of automobile and traded products, venture into products relating to wood, wood pulp or fluff, paper and packaging industry and explore businesses propositions in the ores and mining industry. The shareholders in the extraordinary general meeting held on March 30, 2010, passed a special resolution altering the main objects clause of the Memorandum of Association for incorporating the proposed business activities mentioned above.
