III. Other information

1. Reasons of loss or inadequate profits

The Company's performance was adversely affected by several external events that took place during 2011-12. Due to the tsunami in Japan early last year, the supply chains of Honda Motors and Toyota Motors in India were badly affected, and as a result the vehicle production of these companies was very low in the first quarter. Further, some car manufacturers like Hyundai Motors, and specially Maruti, were affected by labor unrest which took a heavy toll on their production and sales. To make matters worse, the production at Honda Motors was halted once again during the year due to the floods in Thailand resulting in non availability of components. Uniproducts is a supplier of various parts to all these car manufactures, and consequently, our Company's sales were impacted during the financial

year 2011-12. As a result of this turmoil, some of the car launches scheduled for 2011 were postponed for 2012, which further affected our sales. During this entire period, the Company had to maintain manpower for the anticipated capacity and bear the salary cost, as these circumstances could not be anticipated or foreseen. Furthermore, high interest costs due to an increase in interest rates also contributed to the decline in profitability.

2. Steps taken or proposed to be taken for improvement

The Company has taken steps to reduce costs and to improve efficiencies, tap new business opportunities, diversify its business, enhance value addition to its customer base, maximize capacity utilization with least cost etc.

3. Expected increase in productivity and profits in measurable terms

With the reduction in costs, improvement in efficiencies, improved value addition and product diversification, the Company hopes to optimize capacity utilization and generate higher revenues and profitability.
