## **MANAGEMENT DISCUSSION AND ANALYSIS REPORT**

### **INDUSTRY OUTLOOK**

The Company is a 100% EOU. The Company is engaged in manufacturing of ferrous and non-ferrous items. It converts copper, brass and aluminum and make ingots out of it. The Company is in the business of re-cycling of E-waste.

The Company has also initiated following measures:

- Initiation of Internal audit process of generation and recycling of e-waste
- Product design keeping in mind the easy dismantling and recovery or reuse of parts.

As a manufacturing Company we require that all the vendors abide by the applicable environmental laws and follow environment practices that reflect the spirit of those laws.

### **OPPORTUNITIES AND THREATS**

The business faces an unprecedented increase in the cost of power and also steep increase in the cost of metallic and ferro alloys. After having taken steps to enhance the capacity and balancing the Company has now decided to address the issues relating to metallic and power

In India, every gram of e-waste is sold, all go on bidding war to dispose E-waste. PSU's auction E-waste informal buyers pay higher prices as they don't pay tax or bother to follow any regulation. However, there have been no efforts to curb informal operators. Scrutiny is not applied to informal sector due to lack of will power and manpower. Export requires special license and overall e-waste is not managed efficiently. Therefore Company follows ethical practices while disposing waste, not just looking for scrap value.

### **RISK AND CONCERNS**

Our business operations are subject to various risk and uncertainties which are no different from any other Company and our competitors. Such risk is the result of not only the business environment within which we operate but also of other factors over which we have no control. These risks may be categorized between operational, financial, environmental, health and safety, political, market related and strategic related. We have well documented risks management practices that act as an effective tool in minimizing various risk to which our business is exposed to during the course of our day to day operations. Our risk management process is approved by the Board of Directors and is set up across the enterprise. Recycling process typically involves dismantling the unit, recover plastics and metal and send for further processing.

### **FINANCIAL PERFORMANCE**

During the year under the report your Company achieved a turnover of Rs.39,995,901/- as against the turnover of Rs. 192,239,211/- in the previous year. The profit after depreciation and tax was 3,477,441 as against profit of Rs. 897,730/- in the year ended 31<sup>st</sup> March 2011.
