STATE OF COMPANY'S AFFAIRS AND FUTURE OUTLOOK :

India Textile Industry is one of the leading textile industries in the world. Though it was predominantly unorganized industry even a few years back, but the scenario started changing after the economic liberalization of Indian economy in 1991. The opening up of economy gave the much-needed thrust to the Indian textile industry.

The Company was incorporated in 1992 and have much market share in worsted suiting in India. The Company is also making fresh and enthusiastic efforts to improve its performance in the world market, particularly Europe, Japan and the Middle East Countries.

Due to continued economic recession and crisis in Textile markets and as a result thereof, turnover decreases marginally to Rs. 26.93 crores as against Rs. 29.93 crores in the previous year. However, the Company's effort over the past years to enhance its presence in the Domestic sector bore fruit and by penetrating the Institutional segment, there was a significant rise in Domestic Sales.

Due to overall decrease in Turnover and increase in input costs the Company suffering cash loss. During the year under Review the Company continued to be as a Sick Industrial Undertaking as the Hon'ble High Court of Calcutta vide order dated 08.11.2013 passed in W.P. No. 31462 (W.P.) of 2013 has held that order of abatement passed by AAIFR cannot attain finality till S.A. No. 03 of 2012 is decided by Debt Recovery Tribunal, Nagpur. The matter is sub-judice before the Court of Law.

BUSINESS OUTLOOK :

The inherent strengths of the textile industry have seen the textile industry through rough days and hard times.

The World trading system have endangered the stability of the textile industry and created an atmosphere

of uncertainty and turbulence in the industry. But it is also a fact that turbulence is necessary for any change in the system. In a World that is fast losing its traditional boundaries and borders are becoming invisible, there is need to bring about technological improvement, structural changes, liberalisation from controls and regulations, increased productivities of labour and machine and reliable quality assurance systems. If there is insecurity inherent in the globalised economy, there is also opportunity – opening up of vast markets to Indian textiles and Indian clothing that were earlier closed or regulated and Indian textile industry is ready to take up this opportunity of free trade and secure its well deserved position in the international textile arena.

The Economic crisis is continuing to affect the order situation adversely. The on-going competition with China is also making it difficult to generate fresh business. Although China is the number one apparel export country, and the Chinese-made fabrics are still not satisfactory in respect of color, texture, quality etc. To be more competitive in the domestic market, the management is pursuing with the Government Authorities for De-bonding of our processing unit.
