MAHAVIR SPINNING MILLS LIMITED

Towards Resurgence of Indian Textile Industry

Most businesses face challenges. But the textile industry, often referred as Mother of all industries, faces unique challenges. With over one hundred countries competing through thousands of companies in the international textile market, the "competitive advantage of nations" and competence of individual companies are put to severe test. Yet it is also very enchanting world. The plethora of technologies and fibres offer enormous opportunities for companies to test their creative potential in producing a diverse range of products for the growing market.

During the last fifty years, the textile industry in the country has recorded impressive growth. But in relative terms, the industry has actually lagged behind in the global textile trade. The Sathyam Committee Report clearly points out the policy dynamics restricting the growth of industry. The industry has confined itself to produce basic products. As a consequence, we are not present in the more lucrative segments in the international market. It has also kept the domestic market shallow with basic, low quality and functional products, thus having lowest per capita consumption of textiles in the world.

The Vardhman Group is focussed on the emerging opportunities in the global and national textile market. As one of the largest exporters of textile products from the country, we keep identifying the critical barriers that need to be addressed at policy level and enterprise level. At policy level, I believe, India needs to make textile exports as the corner stone of its manufactured goods export drive. A 20% per annum growth in the textile exports is not beyond our capabilities. An export led textile industry will also help expand domestic market by upgrading the product quality, designing and reduced cost to the customer. At the enterprise level, Vardhman Group is making constant efforts to enhance our competitiveness by continuous productivity improvement, product and process development initiatives.

I believe we are standing at the door of tremendous opportunity, which we cannot afford to pass by. A visionary and bold approach to the development of textile industry can lead to the creation of strong and vibrant textile section worth about \$100 billion, compared to \$30 billion today. This will give big push to our economic development - raising income and expanding employment opportunities specially for the deprived section of the society. However, we must move fast to build competitive advantages in the global textile market, before the competitors get a strong, impregnable foothold.

With best wishes,

(S.P. OSWAL)

2. MANAGEMENT DISCUSSION AND ANALYSIS REPORT:

a) TEXTILE INDUSTRY-GLOBAL PERSPECTIVE:

Global trade in textile and clothing is growing at the rate of 5-7 per cent and was estimated at \$ 356 billion in 2000. The textile industry manufacturing base continues to shift to developing countries, especially in the Asian region. China, Pakistan and India are the three main beneficiary countries from the global relocation of textile industry and would be the hub of world textile industry in the coming years. The global fibre consumption is projected to grow at the rate of 2 per cent per annum during the next five years. The per capita consumption of fibre in the world is increasing. It has increased from 7.00 kg in 1990 to 7.70 kg in 2001 and is projected at 8.50 kg by 2005. The United State of America and European Union will remain the major consumers of textile products.

b) TEXTILE INDUSTRY-INDIAN PERSPECTIVE:

The textile industry occupies a place of prominence in industrial sector of India. India has the largest capacity of installed spindles (38 million, being 24 per cent of world's installed capacity) and looms (64 per cent of world's

installed capacity) in the world. India is the third largest producer of spun yarn and the largest exporter of cotton yarn.

The size of Indian textile industry is estimated at Rs. 1,51,000 crore, which is growing at the rate of 5 per cent. Presently, the per capita consumption of textile fibre in India is one of the lowest (2.5 kg) in the world but with the steady growth of GDP at 5-6 per cent per annum and increasing income of the masses, it is likely to grow. If the structural rigidities can be removed, the textile industry is projected to grow by 7-8 per cent. Accordingly, the fibre consumption will also increase from 4.6 billion kg in 2001 to 8.4 billion kg in 2010. Similarly, the textile exports are also likely to grow from present level of about \$10 billion in 2001 to \$ 15-18 billion by 2005. All this holds good promise for the Indian Textile Industry notwithstanding temporary down turn in its fortune.

c) FINANCIAL ANALYSIS & REVIEW OF OPERATIONS:

During the year under review, the Company achieved sales of Rs. 78,091.18 lacs as against Rs. 76,772.70 lacs in the previous year, showing a marginal increase of 1.72%. The profit before tax has decreased from Rs. 6,764.45 lacs to

Rs. 3,654.38 lacs showing a decrease of 45.98%. The provision for taxes in current financial year was Rs. 1,113.37 lacs (including provision for deferred tax amounting to Rs. 563.37 lacs) as compared to Rs. 900.00 lacs during previous year (Deferred tax being Nil as was not applicable). The net profit has, hence, decreased from Rs. 5,864.45 lacs to Rs. 2,541.01 lacs, a decrease of 56.67%.

The business-wise performance and overall profitability of the Company during the year is as follows :-

● PRODUCTION & SALES REVIEW:

- i) **Yarn:** The Yarn production has increased by 10.39% from 27658 M.T. to 30532 M.T. The sales quantity has shown a marginal increase of 2.27% i.e. from 28642 M.T. to 29293 M.T. However, the sales turnover in value terms was lower by 0.61% from Rs. 41,967.59 lacs to Rs. 41,713.62 lacs. The exports of the Company have decreased by 10.08% from Rs. 22,136.75 lacs to Rs. 19,906.41 lacs, whereas the Yarn export of the country as a whole has registered a fall of 14% during the year as compared to last year.
- ii) **Sewing Thread:** During the year, the production of Sewing Thread was 5202 M.T. as against 5822 M.T. in the previous year. The sales revenue of Sewing Thread Division decreased from Rs. 21,710.77 lacs to Rs. 21,359.99 lacs, a decrease of 1.62% over the previous year. The Sewing Thread Division saw slight decline in its sales performance mainly due to contraction in garment exports from India and adverse industry conditions. This segment witnessed a severe competition during the year from the market major coupled with the entry of a local competitor.
- iii) **Steel:** The production and sales revenue of Steel Division has increased during the year. The production of Steel Ingots/Billets has increased from 48920 M.T. to 52613 M.T. and that of Rolled products from 42260 M.T. to 48990 M.T., an increase of 7.55% & 15.93% respectively. The sales revenue of the division has increased from Rs. 10,532.78 lacs to Rs. 11,624.96 lacs,

showing an increase of 10.37% over the previous year.

● PROFITABILITY:

The profit before depreciation, interest and tax was Rs. 12,147.08 lacs as compared to Rs. 14,846.00 lacs in the previous year. After providing for depreciation of Rs. 4,327.61 lacs (previous year Rs. 3,546.93 lacs) and provision for taxation of Rs. 1,113.37 lacs, (previous year Rs. 900.00 lacs) including deferred tax of Rs. 563.37 lacs (previous year Rs. NIL), there is a net profit of Rs. 2,541.01 lacs (previous year Rs. 5,864.45 lacs). The profitability has decreased mainly due to drop in yarn prices because of the crash of cotton prices by about 50% in international market, February, 2001, onwards i.e. after the Company had covered its yearly requirement of cotton in October, 2000 to February/March, 2001, due to seasonal factor.

● RESOURCE UTILISATION:

i) Fixed Assets:

The gross fixed assets (including work-in-progress) as at 31st March, 2002 were Rs. 65,731.57 lacs as compared to Rs. 61,648.81 lacs in the previous year. During the year, the Company added assets amounting to Rs. 4,082.76 lacs, which is mainly on account of additions of fixed assets made in Unit-V & technical upgradation of Unit-I at Malerkotla and addition of equipments & machinery at Sewing Thread, Unit-II, Ludhiana.

ii) Working Assets:

The net current assets as on 31st March, 2002 were Rs. 33,901.78 lacs as against Rs. 32,198.19 lacs in the previous year. Inventory level was at Rs. 21,418.49 lacs which was higher than the previous year level of Rs. 20,822.75 lacs. Debtors outstanding as on 31.03.2002 were Rs. 9,307.04 lacs as compared to Rs. 8,041.38 lacs in the previous year.

● FINANCIAL CONDITIONS & LIQUIDITY:

The Company enjoys ratings of "AA-" on its long term debentures, "FAA" on fixed deposits and "P1+" for short term borrowings from Credit Rating Information Services of India Limited (CRISIL). Management believes that the Company's liquidity and capital resources should be sufficient to meet its expected working capital needs and other anticipated cash requirements. The position of liquidity and capital resources of the Company is given below:-
