2. Management Discussion and Analysis

Financial Review

During the period under review, the Company, posted an increased turnover of Rs. 217189.91 lacs as compared to last year's turnover of Rs. 134060.79. The net profit after tax was at Rs. 751.06 lacs after providing for depreciation of Rs. 53.00 lacs. Adequate provision has been made for assets classified as bad/doubtful and for diminution in value of investments in accordance with the Accounting Standards prescribed by the Institute of Chartered Accountants of India and the Reserve Bank of India Regulations in the matter.

Industry Structure and Development

The Indian economy grew by 8.1% in 2005, well above its last year's growth and is expected to grow at around the same rate in 2006-07. Agricultural growth increased by 2.3% while the industrial sector posted a robust growth of 9%. The services sector, with growth rate of 9.8%, continued to be the major contributor to the country's economic growth. With visible buoyancy in the capital market coupled with relative political stability, the overall economic environment remained supportive of investment and additional capacity building. The raising of about \$40 billion in equity and debt, of which \$25 billion from overseas by way of convertible bonds, depository receipts and syndicated receipts, is testimony to the significant pickup in overall investment activity. This has strengthened performance of the industrial sector during the current year.

The country's foreign exchange reserves continued to rise and crossed the \$150 billion mark by March 2006. The FI inflows in the country increased rapidly. The BSE Sensex catapulted to record level of 11279 as on 31.03.2006 to touch even higher levels thereafter.

The average inflation in 2005-06, based on the wholesale price index, was lower at 4% as against the earlier estimated 5.5%. It was above 6% in 2004-05. Liquidity in the system continued to be comfortable with interest rates generally ruling low. The Non Banking Finance Sector ("NBFC Sector"), however, continued to reel under pressure from the banking industry which has penetrated into almost all the segments of the financial services sector. The working of the Non Banking Financial Companies (NBFCs) also continued to be adversely affected by defaults and absence of proper and speedier recovery laws and procedures, such as those available to banks and financial institutions. In the highly competitive environment in which the NBFCs are presently working, they have no option but to streamline and optimize their operations to adapt to the emerging scenario.

Outlook, Risks and Concerns

With a GDP growth of 8% posted during the year, the Indian economy provides attractive growth opportunities. As the contribution of the services sector to the overall economy is steadily rising, the financial services industry is also poised for steady growth.

The NBFC sector in which your Company operates, has been facing competitive pressure from Banks and Financial Institutions, making it increasingly difficult to generate revenues. The shrinking of interest spreads has put further pressure compelling them to look for new avenues for revenue generation. In this scenario, concentration on selected customer segments, offering them highly customized services, and cutting costs, shall continue to be the survival strategy for the NBFCs. Accordingly, the Company had cut down its exposure to credit operations consisting of loans, hire purchase etc. No fresh exposures were undertaken in these areas during the year under review. The Company's operations continued to be focused on capital market related activities and making use of risk hedging tools such as derivatives and other risk neutral instruments. Further, your Company shall continue to explore opportunities in areas related to its operations.

The Company is exposed to normal industry risks like credit, interest rate, economic, political, market and operational risks. Your Company follows prudent business and risk management practices to combat these challenges.

Opportunities and Threats

The equity markets continued to remain upbeat during the year. The increase in asset values in the real estate sector, the growth in industry, trade and commerce had led to significant increase in overall credit off-take. Your Company intends to increase its thrust on corporate advisory services, investment appraisal and syndication. The Company is carefully gauging each opportunity in terms of risks and rewards involved and hopes to tie up successful ventures in the foreseeable future.

Your Company would also endeavor to strengthen its subsidiary and associate companies and to make efforts to harness the benefits of group synergy.

Adequacy of Internal Control Systems

The Company has proper and adequate system of internal controls to monitor proper recording of transactions according to policies and procedures laid down by the Company. The Company ensures that the regulatory guidelines are complied with at various levels.

The internal audit reports are regularly monitored by the Audit Committee.

Segment wise Performance

As against layout of Rs. 6756.28 Lacs in financial services segment, the total revenue receipts were Rs.216747.69 Lacs. In the Investment segment, there was a revenue earning of Rs. 446.18 Lacs for a layout of Rs. 8265.87 Lacs during the year under review. The gross profit posted in the financial services segment was Rs. 667.47 Lacs and in the investment segment a gross profit of Rs. 446.18 Lacs was recorded, during the year under review. After providing for Interest of Rs. 0.07 Lacs and Rs. 327.88 Lacs for segmentwise unallocable expenses, the net profit before tax stood at Rs. 785.70 Lacs.

Cautionary Statement

The statements in the above analysis, describing the Company's projections, estimates, expectations or predictions are 'forward looking statements' within the meaning of applicable security laws and regulations. The actual results may differ materially from those expressed or implied. Important factors that could make a difference to the Company's operations, include changes in government regulations, tax regimes, economic developments within the country and abroad, and other related factors.

3. Dividend

Even today, the NBFC sector in general, and your Company in particular, are facing challenges and uncertainties in a volatile financial market. These challenges can only be met by building up a strong net worth. Therefore, with a view to conserve resources, no dividend is recommended.

4. Directors

Shri Somesh Mehrotra, Shri N. C. Sundararajan, Shri B. M. Oza and Shri Divey Dipti Chopra Directors would retire by rotation at the forthcoming Annual General Meeting and all, being eligible, offer themselves for reappointment. To enable the Company to obtain their continued valuable direction, guidance and assistance in conduct of the affairs of your Company, it is recommended that their reappointment be approved. Following its policy of improving corporate governance practice and in compliance of listing agreement requirements, the Board has appointed Shri K. K.
