2. Management Discussion and Analysis

Financial Review

During the year under review, profit before tax was Rs.796.06 Lakhs as compared to Rs. 728.69 Lakhs for the previous year and profit after tax was also higher at Rs. 701.98 Lakhs as compared to Rs. 648.01 Lakhs during the previous year.

Industry Structure and Development

The world economy showed a weakening trend, with weak aggregate demand, falling commodity prices and increasing volatility in the financial markets. Most emerging economies have been showing slower economic growth. India has fortunately been able to buck this trend, thanks largely to the country's domestic demand and comparatively limited reliance on the external sector for growth. The world economy's revised growth rate was at 2.4% as compared to 3.6% in the previous year and is projected to grow by 2.9% in 2016.

The Asian region is expected to grow at a steady 5.4 percent in 2015–16 and will continue to remain the global growth leader. Asia's growth should benefit from relatively strong labour markets and growth in disposable income along with the ongoing recovery in major developed economies. Low inflation, increased public investment, revival of private investment and increased consumption (both urban and rural) were the major factors influencing India's GDP growth which was at 7.4%. The continuing tightening measures by the Reserve Bank of India to combat inflation, led to higher cost of funds which adversely affected India's industrial growth. The value of the rupee stabilized vis-à-vis other international currencies during the later half of the fiscal year as a result of various measures taken by the Government and Reserve Bank of India.

Outlook, Risks and Concerns

Your Company has been making use of available opportunities in the capital and the commodities markets for its operations, keeping in view its business objectives. The Company received registration as stock broker in October, 2014. After complying with the requisite formalities of the stock exchange viz. BSE Ltd, the Company commenced operations as stock broker in December, 2015.

The underlying strength of Indian consumption and demand, continues to remain robust. The country's equity markets remain a favourite of global investors. The performance of your Company is closely linked to those of the stock and commodities markets and more particularly to stock markets. The growth tendencies for 2016-17 are expected to be mostly reflective of the developments in these areas. Your Company is cautiously optimistic in the current scenario and will focus on a well-adjusted portfolio mix, resourceful cost management and risk containment measures in order to sustain profitability.

The Company is exposed to normal industry risks such as credit, interest rate, economic, currency, political, market and operational risks. Our approach to risk management is based on our extensive experience and well placed risk management framework. The Company views risk management as integral to its business for creating and maintaining best practices in business operations and administration.

Opportunities and Threats

Positive strides have been made since the new government has taken over. The Company is looking forward to grasp the available opportunities. The Company will also focus on permitted avenues as a member of the Stock Exchange including corporate advisory and other related services. The uncertain state of the global economy however remains a cause of concern.

Adequacy of Internal Financial Control Systems

The Internal Auditor monitors and evaluates the efficacy and adequacy of internal financial control systems in the Company, its compliance with operating systems, accounting procedures and policies at all levels of the Company and its subsidiaries. Significant audit observations and the corrective actions thereon are presented to the Audit Committee of the Board. The control framework is established and maintained by the Company. The observations by the internal and statutory auditors is perused by the Management, the Audit Committee as well as the Board for proper implementation. The Company's internal financial controls have been found to be adequate and effective.

Segment wise Performance

Accounting Standard (AS-17) relating to "Segment Reporting" has been complied with. The gross operating income and profit from the other segment is below the norms prescribed in AS-17, hence separate disclosure has not been made.

Cautionary Statement

The statements in the above analysis, describing the Company's projections, estimates, expectations or predictions may be 'forward looking statements' within the meaning of applicable securities laws and regulations.
