As has been informed to the shareholders in earlier years the Company keeping in mind its overall competitiveness in international markets has closed

the unit at No. 86A & B, 4th Cross, Electronics City, Hosur Road, Bangalore – 560 100. This unit used to manufacture CRT Terminals (GVX) for which there is no demand over many years. As per Global Industry Analysts Inc's recent global report on Thin Clients market, the world market for Thin Clients is projected to reach 14.36 million units in sales by the year 2015. Growth will be primarily driven by the ability of thin clients to present exceptional environmental and cost benefits to the user. Desktop virtualization and growing need for anytime, anywhere accessibility to corporate & Internet networks are the other trends that augur well for thin clients market.

Growth in the worldwide thin clients market is also fashioned by a range of environmental benefits that thin clients offer, including efficient use of energy and less use of raw materials.
