Net profit after tax has improved by 81.39 per cent from Rs.89.38 million in the previous year to Rs.162.13 million for the year ended 31st March, 2001. The marked improvement in profitability is primarily due to significant increase in freight rates in the product tanker and LPG segments. Bulk carrier freight rates have also shown an upward trend during the year under review. With the recovery of South East Asian economy, demand for shipping has increased sharply giving an impetus to freight rates in all sectors of shipping. After the "Erica" accident, there has been an overwhelming focus on "safe" ship with charterers and classification societies insisting on improved quality tonnage. Shipowners with high quality vessels are therefore witnessing
