## c) MANAGEMENT'S DISCUSSION AND ANALYSIS REPORT

## 1. Industries Structure and Development

The company has already designed a portal which contains the details of eye surgeons, eye banks etc. all over the world. As the world is now getting closer because of the information technology, the company expects to get more clients form foreign countries. Further the cost for all the medical facilities in India is very low as compared to other parts of the world, hence this will help the company to generate more revenue.

## 2. Opportunities and threats

As the tariff barriers reduce and the world becomes one market place, competition is bound to Increase. This throws up previously unavailable opportunities as also threats. In today's fast changing technology scenario all it takes for a competitor to come up with similar products is 6-12 months. A pioneer always has to take risks of failure while trying to reap the rewards of success. Other than these the management does not foresee any risk.
