Vesuvius Diary

Vesuvius Group

Vesuvius Group continues to be the leader in the world for flow control of liquid metal. In order to maintain its technological edge over competitors, it continues to invest in Research and Development and implement improved processes for the benefit of its customers. Vesuvius India benefits immensely from these R&D efforts through constant support from the Group.

Quality and Technology

Technology being of essence, only high-tech and high performance refractory products and services will be more in demand in future, and units capable of meeting the changing qualitative requirements of the consuming industry will be on the forefront. Vesuvius India, with the constant support from Vesuvius Group is in a position to provide such technologies.

Acquisitions

Our Company has been progressively making acquisitions which complement its existing business, synergising with its existing activities and performances. A range of refractory products for blast furnaces were acquired from KSR International India Limited in 1999 to seed the monolithics business. From July, 2000 a new monolithics plant at Visakhapatnam was purchased from Carborundum Universal Limited to set up a base for manufacturing monolithics, blast furnace casthouse refractories and general purpose pumpables. The Tundish Lining Products business of Foseco India Limited was acquired in March, 2002 for the manufacture and supply of tundish spraying mass.

A crucible manufacturing unit at Gujarat is now being acquired from March, 2003 to intensify our Company's foray into the foundry industries.

Vesuvius India now a Rs.100 Crores turnover company

Vesuvius India has achieved its much cherished dream of attaining a turnover of Rs.100 crores. Independent publications have given the following ratings to Vesuvius:

Economic Times Intelligence Group Report in September 2002		Business Standard Report in December 2002		
Particulars	Rank in 2002	Particulars	Rank in 2002	Rank in 2001
Operating margin	70th	Super rank	80th	Not mentioned
Market cap	342nd	Composite rank	180th	340th
		Net Sales	813th	996th
		Net Profit	375th	Not mentioned

Human Resources

Employees are partners in the Vesuvius family and their involvement is encouraged and emphasised. Inhouse training as well as training abroad are provided to employees. HR initiatives to train, empower and delegate are ongoing, processes in our Company and annual get-togethers improve the bonhomie spirit. The inhouse magazine edited by the Mrs. Tutul Gupta, wife of the Managing Director, reflects this spirit and the involvement of the employees and their families. Senior executives are also sent abroad to undergo the Group's course on Global Leadership Skills. Health, safety, environmental issues, employee welfare and housekeeping are on the priority list.

Business Environment

India is the eighth largest producer of steel in the world but the per capita consumption of steel is low primarily due to low usage of steel in construction, low penetration in the rural areas and inadequate infrastructural facilities. The Indian steel industry is dominated by integrated players, who have large steel manufacturing capacities in the public and private sectors. The oversupply in the domestic market, the intense competition from imports and high cost of borrowings have had its impact on this industry. Our Company produces refractories primarily for the steel industry using the continuous casting process.

There is at present a buoyancy in the fortunes of the Steel industry. Both demand and prices are resilient and steel plants have increased production in the later half of the year. Financial Institutions have also agreed to restructure high cost loans of some major steel plants which will enable them to improve their financials as well as complete their expansion projects resulting in increased business and ease in collections.

Aluminium companies have announced major capital expansion plans. This industry
