3. GOVERNMENT INITIATIVES:

The Government of India announced stimulus package which, coupled with the Reserve Bank of India's move allowing banks to provide special treatment to the real estate sector, is likely to impact the Indian real estate sector in a positive way.

Foreign Investment Promotion Board (FIPB) announced new foreign direct investment policy (FDI) during the current year aimed at simplifying existing norms to attract foreign investment into India.

Besides the above measures, the government also announced an economic stimulus package keeping in mind the impact of the global slowdown on the Indian real estate sector. Public sector banks and private sector banks announced a package for home loan borrowers in various categories. This is expected to increase borrowing for homes and in turn give a boost to the realty sector. Moreover, excise duty cuts on cement and steel are expected to bring down construction cost.

4. OPPORTUNITIES AND THREATS:

With the downturn in the Real Estate market caused by the global economic slowdown, there is an opportunity of creating portfolios in the affordable Real Estate market and to grow the largely untapped mid-market segment. Real estate companies have seized the opportunity to re-classify their products / offerings in order to cater to the high volume affordable housing segment. Other measures include postponing new launches, re-allocating funds and focusing on completion of pre-committed projects, re-orienting product portfolio in favour of mid-income / affordable homes and cutting construction cost via value engineering to survive the ongoing slump. The present crisis presents an opportunity to every real estate company to correctly identify end-user needs and keep affordability in mind before embarking on newer projects. There is also an urgent need for deregulation of most of the laws pertaining to the real estate sector.
