This facility has provided the much needed impetus to the exclusive range of products manufactured by your company as machine embroidered products are much more in demand because of superiority enjoyed over hand embroidered ones.

Buoyed by success of its first embroidery venture for in house embroidery on its products, the company is now gearing up to expand the facility by setting up second phase of the embroidery facility. The company intends to import 21 more set of embroidery machines from Japan in addition to its existing strength of 8 set of machines and hope to commence operations of the phase II in the Second half of current financial year.

The tech-park project is progressing now and is expected to be completed for operations in the second half of current financial year. Your company will be able to derive the advantages as envisaged under the scheme of Central Government for development of I.T.
