In the year under Review, we continued making progress on both the Digital Demand Generation and Telecom initiatives that were launched in the previous year.

In Demand Generation, we continued to strengthen the strategic partnership for India and APAC with 6Connex Inc. (www.6Connex.com) – a California based global leader in Virtual Experience based business solutions. Supplementing their technology with our own domain competence, processes and goto market ecosystem, Virtual Soft launched a range of next generation Virtual Experience based events for demand generation, customer engagement, collaboration, learning and knowledge management for brands like CNBC/ Web 18, Cisco, Oracle, and Intel – both at the India & APAC level.

Further, for Intel India we received a major demand generation assignment for their Small Medium Business (SMB) target audience in the Delhi/ NCR and Punjab territories. This was subsequently extended to Western and Southern India States.

The Telecom Division that launched global roaming solutions and services under the “Roam1” brand (www.roam1.com), continued to make significant progress in terms of innovative and unique product introductions and plans as well gaining market share and acceptance – both from end –customers and channel partners.

Our flagship product here is the Global Single Sim Product, that contains 3 Telephone Numbers or Profiles (UK –Italy- USA) that provides low cost telephony in international roaming. This SIM provides Free Incoming in over 90 countries and provides low cost Call Back to India. This is offered through both a prepaid and post-paid plans, with real-time billing that allows the Indian Customer to control his international telephony expenses.

The billing is in real time and is visible instantly on the net which ensures that there is no room for over billing. The customer gets to retain the card and can publish the number as his permanent International Number on his business card and stationary etc. This way every time the customer goes abroad, he adds talk time on his card which makes repeat business very easy for us. The Global Single SIM Product is supported by a wide array of country and continent specific products and plans for voice, data and Blackberry Messaging.

In the year under Review, with an intent to synergise the two divisions at a corporate level, the C2E2 Initiative was conceived. C2E2 stands for Connect Communicate Engage Experientially and provides a bridge for the Telecom & Roam 1 Division to collaborate with the Virtual Events and Demand Gen Division in technology & product development, marketing and large partner and account development. This will lead to unique cross developed product offerings (e.g mobile sales, mobile learning and mobile marketing & couponing tools and platforms), cost rationalization as well as more sales yield from our goto market partners and large enterprise accounts.
