# OUR STORY SO FAR...

# CHAIRMAN'S MESSAGE

## Dear Shareholders,

It is indeed a pleasure to share with you Vishal Fabrics' performance and our collective gains for the fiscal year 2019-20.

Your Company continues to maintain a strong market standing with its constant focus on delivering globally acceptable, premium quality products, designed to enhance customer delight. We remain firm on our virtues and values, while we keep evolving our innovative product portfolio to match a dynamic business environment.

The last fiscal proved to be immensely challenging due to multiple macro-economic factors which led to a slowdown in the global as well as Indian economy. The severe impact of the COVID-19 pandemic further worsened the situation. Several countries across the globe, including India, imposed a nationwide lockdown which resulted in temporary closure of businesses, leading to a significant decline in economic growth.

The government announced various fiscal and monetary policies aimed at reviving an ailing economy. A stimulus package of ₹ 20 lakh crore was also sanctioned by the government during the

pandemic, to bring the economy back on track.

Despite several headwinds, your Company continued to grow and deliver value, reflecting the strength of its robust business model and its strategic abilities to tide through tough times. We recorded an operational revenue of ₹ 1,296.84 crores, witnessing a growth of 29.89% as compared to the previous year. The net profit also grew significantly, by 68.53%, from ₹ 17.86 crores in FY 2018-19 to ₹ 30.10 crores in FY 2019-20.

In keeping with our endeavour to become a key player in the Denim industry, your Company remains focused on enhancing its operational efficiency and strengthening its market share. We greatly emphasize investments in ultra-modern technology to ensure agility across our processes, ranging from spinning and weaving to delivering finished products. We currently have a processing capacity of 105 MMPA, while our dyeing capacity is 80 MMPA. Over the years, we have concentrated on developing our state-of-the-art manufacturing facilities and we aspire to expand them further to improve our market reach.

We are associated with some of the most renowned fashion brands in the industry and we continue to embark on opportunities to establish ourselves as a preferred partner for our valued patrons. We currently export our products to over 12 countries around the world and aim to expand our geographic presence further in the years to come.

At Vishal Fabrics, we are aware of our social responsibility and believe in nurturing mutually beneficial relationships. We continue to invest in educational endeavours and emphasize on environmental sustainability and

social welfare to truly reflect our philosophy of "Thinking about others when thinking of self".

Going forward, your Company will be focusing on building strategic tie-ups with leading global retail brands for direct sales. We will also continue to work on optimising our capacity utilisation while improving operational efficiency.

With higher revenues, enhanced cost efficiency and a strong financial discipline, I am positive about the success of our future endeavours and the growth of your Company, as we move ahead. Moreover, an increased focus on superior technology and automation will ensure better outcomes and empower us to set new benchmarks in our industry.

In conclusion, I would like to express my heartfelt gratitude towards the Board and our Management for their constant guidance. I am also thankful to our employees for their hard work and dedication towards the Company. I acknowledge the support of our Creditors, Customers, Bankers and every other stakeholder for their faith and trust in our abilities.

The world at the moment continues to grapple with unprecedented challenges. While we remain cognizant of our responsibilities and duties, we are also confident about navigating through tough times and deliver sustainable returns in the days ahead. We continue to look forward with enthusiasm, welcoming another exciting year of opportunities and growth.

Thank you, everyone.

# CFO'S MESSAGE

## Dear Shareholders,

The global pandemic continues to impact the business environment, with added pressures on credit availability and margins. However, resting on our strategic abilities, we continue to grow and improve our profitability and performance.

Vishal Fabrics reported strong financial performance in FY 2019-20 despite challenging circumstances. During the year, the Company experienced robust revenue growth of 29.88% to reach ₹ 12968.4 million as compared to ₹ 9984.9 million in FY 2018-19. Increased domestic demand and improvement in exports contributed to our growing sales. It was primarily led by a shift in consumer preference, driven mainly by favourable demographics, the growth of a fashion-conscious urban population and increasing reach of organised retail segments. Higher disposable income also helped to increase demand. The global denim jeans market is projected to grow at a CAGR of 4.6% to reach \$130 billion by 2021. Taking into consideration, the acceptance of denims as a preferred fabric, we remain optimistic about exponential opportunities in this segment.

During the year, we also adopted superior technology and resorted

to automated processes to reduce operational expenses and ensure cost optimization. In addition, we increased the capacity utilisation of denim manufacturing from 55% to 75% in FY 2019-20. These initiatives have contributed to better efficiency and higher EBITDA margins. During the year, we registered an EBITDA of ₹ 1034.2 million as compared to ₹ 747.6 million in the previous year, recording an impressive YoY growth of 38.33%. Besides, our EBITDA margin stood at 7.97%, in comparison to 7.49% in the last fiscal.

In FY19-20, our business segments delivered impressive results. Yarn sales improved 48% in FY19-20 and reached ₹ 7716 million against ₹ 5629 million in the previous year. Moreover, we carried forward the momentum and recorded 37% growth in the sale of finish fabrics. With sales of ₹ 3269 million during the year under review, it was significantly higher than ₹ 2213 million recorded in the previous year. Presently, our debt equity ratio stands at a comfortable 1.5x, indicating the financial prudence of our company and proving our ability to perform amidst inopportune circumstances.

Although the pandemic has largely affected the prospects of the textile industry, it is anticipated to bounce back

in the near future. The government's efforts to introduce favourable policies for the textile sector and an overall impetus to boost economic activity is expected to augur well for businesses. Moreover, as the effects of the pandemic subside and things gradually fall in place, domestic as well global demand is likely to pick up. Capitalizing on such opportunities, we aim to expand our operations to newer geographies, improve capacity utilisation and ramp up margins in the days ahead. We are also looking forward to strategic alliances with global retail brands to improve our sales further.

While increasing shareholders' value remains our prime objective for formulating future strategies, we continue to focus on improving our prospects to ensure long-term growth. As we step into another fiscal, our positivity and relentless dedication to perform against all odds motivate us to confidently fulfil organisational objectives.

Regards,

**Mr. Vinay Thadani**
