### PERFORMANCE

The decrease in turnover and profitability of the Company was due to the effect of the recession and economic slowdown at global level. A glance at the segment performance of the Company will definitely predict potentiality in education consultancy and merchant exports whereas the coaching and training services reasonably decreased. The revenue was recorded at Rs.3114 Lakhs as compared to Rs.5893 during the previous year and posted net profit after tax at Rs.280 Lakhs as against Rs.754 Lakhs during the previous year.

## **BUSINESS OVERVIEW**

The unanticipated tremble has left no industry unaffected. However, your Directors are constantly making their efforts to bounce back the performance of the Company and could achieve appreciable results in potential segments like providing educational consultancy and merchant exports. Your Company has taken advantage of the worldwide threat as opportunity to convince the importance of the higher education and demerits in early employment. This move contributed significantly in the operations of the Company. For the rest of the operations necessary parallel and alternate measures are under designing so as to achieve the goals determined in previous years and for the implementation of which the Board has initiated steps.

## **POSTAL BALLOT RESOLUTIONS**

The members have accorded their consent for increasing the Authorised Share Capital of the Company from Rs.100 Crores to Rs.105 Crores and for issue of further shares in the form of Global Depository Receipts (GDR), the results of which were declared by the Chairman of the Company on 4<sup>th</sup> July, 2009.

## **STATUS OF MERGER AND DEMERGER**

Your Directors would like to inform you that the proposal of merger and de-merger informed in the previous year has been withdrawn by the Board of Directors in view of the present market conditions.

## **DIVIDENDS**

In view of the present market conditions and to maintain liquidity, your Directors have not recommended any dividend for the reporting period.

## **FIXED DEPOSITS**

The Company has not accepted fixed deposits as on 31<sup>st</sup> March, 2009 so as to attract the provisions of Section 58A of the Companies Act, 1956 read with the Companies (Acceptance of the Deposits) Rules, 1975 as amended from time to time.

## MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Pursuant to Clause 49 of the Listing Agreement, a report on Management Discussion and Analysis Report is given below:

### INDUSTRY STRUCTURE AND DEVELOPMENTS:

#### Education & Training Industry:

The time has changed when coaching classes were run by the middle-aged former teacher down the road or your neighbour's kids ran a tuition centre from a rickety room. Now it's as formal and prearranged sector as any other and is housed in a commercial building with easy access to maximum students. Outsourcing teachers is the latest trend as there are many who prefer this form of employment to a regular one with fixed hours in schools. There are many who work as freelancers too and they can teach elsewhere. There are also those who teach in schools and who tie up with coaching centre and charge a lot more than the rest.

It has also been recognised that behind the success of Indian workforce there is a strong education system. It seems to be a boom time for the education industry in India as the concept of business through education catches up with the Indian market.

India's youth, often referred to as its demographic dividend, accounts for over 50 per cent of its total population, with 367 universities and 18,000 colleges with half-a-million teachers and about 11 million students on the rolls, India could reap huge returns off its demographic dividend. It has been estimated that in last five years there are about 1,200 management colleges, over 3,000 technical colleges and about 1000 plus medical colleges have been established. In terms of private schools growing, a majority of the new institutions being private would not be anything less than some thousand Crores.

In recent months, the education segment has also seen the rising interest of private equity players. It is assumed that based on the current and future manpower requirements of the various sectors there is a huge demand-supply gap in the education space. This has attracted many players to invest in education and training institutions with the aim of building valuable franchises that can be rapidly scaled up.

#### IT Industry:

The Indian information technology industry has played a key role in putting India on the global map. Thanks to the success of the IT industry, India is now a power to reckon with. According to the National Association of Software and Service Companies (NASSCOM), the apex body for software services in India, the revenue of the information technology sector has risen considerably in FY 2008-09.

India's IT growth in the world is primarily dominated by IT software and services such as Custom Application Development and Maintenance (CADM), System Integration, IT Consulting, Application Management, Infrastructure Management Services, Software testing, Service-oriented architecture and Web services.

As per NASSCOM's latest findings, the Indian IT-BPO sector grew by 12 per cent in FY 2009 to reach US\$ 71.7 billion in aggregate revenue (including hardware). Of this, the software and services segment accounted for US\$ 59.6 billion. IT-BPO exports (including hardware exports) grew by 16 per cent from US\$ 40.9 billion in FY 2007-08 to US\$ 47.3 billion in FY 2008-09.

Despite the uncertainty in the global economy, the IT industry has growth from all important sources from the North American and European regions, in the financial services vertical and from application maintenance and development (ADM) offerings between fiscal years 2008 and 2009.

### **IT-Domestic Markets**

The domestic market has also become a force to reckon with, as the existing IT infrastructure evolves both in terms of technology and depth of penetration. India Inc's demand for IT services and products has bolstered growth in the domestic sector with deal sizes going up remarkably. Such growth in the software and services sector has been achieved because of spectacular growths in some segments. According to research firm Gartner, India's personal computer (PC) market is likely to grow by 13.7 per cent to 11.1 million units in 2009, aided by a surge in demand for laptops. The laptop market is expected to grow by 37 per cent in 2009 to 3.69 million units and constitute a third of the total PC market.

### **Government Initiatives**

The government set up the National Taskforce on Information Technology and Software Development with the objective of framing a long term National IT Policy for the country. *Enactment of the Information Technology Act which provides a legal framework to facilitate electronic commerce and electronic transactions.* The government-led National e-Governance Programme, has played an important role in increasing internet penetration in rural India.

### **Road Ahead**

*The Indian information technology sector continues to be one of the sunshine sectors of the Indian economy showing rapid growth and promise. According to a report prepared by McKinsey for NASSCOM, the exports component of the Indian industry is expected to reach US\$ 175 billion in revenue by 2020. The domestic component will contribute US\$ 50 billion in revenue by 2020. Together, the export and domestic markets are likely to bring in US\$ 225 billion in revenue, as new opportunities emerge in areas such as public sector and healthcare, and as geographies including BRIC and Japan opt for greater outsourcing.*
