ANNEXURE TO THE DIRECTORS' REPORT

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Pursuant to Clause 49 of the Listing Agreement, a report on Management Discussion and Analysis Report is given below:

ECONOMIC OVERVIEW

2012 was a challenging year for the global economy. Global economic recovery post the financial crisis, moderated sharply in the latter half of 2012 and early 2013. Consequently, the world output growth dropped down sharply in 2012. While the economic activities showed encouraging improvements. The advanced economies are estimated to have grown by moderately in 2012. The deceleration in developed economies impacted the developing economies through trade and financial channels directly besides weakening the business and investment sentiments.

INDUSTRY STRUCTURE AND DEVELOPMENTS:

Education & Training Industry:

Global Education Sector

The education sector comprises of preschools, schools, colleges & Universities (Higher / Tertiary education), technical & professional institutes (Vocational), eLearning, education gaming, coaching and test preparation. For year 2012 the globally contributing the educational sector was huge. Education sector globally continues to be the largest segment forming close to half of the total education spend, followed by the higher education.

Not surprisingly, in many developing countries like in South Asia and Africa the overall spending on education is growing in double digits. During the year, the thrust on improving the standards of education continued globally, with countries increasingly adopting the modern technology and communication tools to create an interactive and engaging learning environment. Globally, entire education spectrum from pre-school, higher education, vocational education to teacher learning to school infrastructure is being re-evaluated to create a more knowledge driven environment than the earlier content driven one. Globally, the economic slowdown has once again highlighted the key role of educated workforce in achieving a sustainable long-term economic growth. Despite reducing budgetary support, countries are striving to maintain spend on education as it helps them to boost their productivity, competitiveness and economic

The education sector is fastest growing sector in India with promising future ahead. With the increase in number of educational institutions, the student community is finding multiple choices to achieve the desired career. This growth is further expected to accelerate in multiples upon approval of many bills pending in parliament. It is well proved in past few years that in spite of several crises in terms of economic slowdown, recession and overseas government policies or otherwise, the demand for higher education among the youth is continuing to increase

Enormous increase in global opportunities for education as well as employment, education sector undoubtedly has tremendous future especially coming generation between age group of 5-15 years who have started focusing international avenues. This is the reason why Educational sector has the prospects of becoming the fastest growing sector in years to come. Foreign investment is also showing signs of entering into education sector in a big way in India in recent years and beyond.

IT Industry:

IT Services can further be categorized into Information Services (IS) outsourcing, packaged software support and installation, systems integration, processing services, hardware support and installation and IT training and education. The industry continues to be a net employment generator - expected to add 230,000 jobs in FY2013, thus providing direct employment to about 2.8 million, and indirectly employing 8.9 million people. This sector has also led to massive employment generation.

Generally dominant player in the global outsourcing sector. However, the sector continues to face challenges of competitiveness in the globalized world, particularly from countries like China and Philippines. The Indian Information Technology sector can be classified into the following broad categories - IT Services, Engineering Services, ITES-BPO Services and E-Business. India's growing stature in the Information Age enabled it to form close ties with both the United States of America and the European Union. India's IT Services industry was born in Mumbai in 1967 with the establishment of Tata Group in partnership with Burroughs. The first software export zone SEEPZ was set up here way back in 1973, the old avatar of the modern day IT park. More than 80 percent of the country's software exports happened out of SEEPZ, Mumbai in 80s. Engineering Services include Industrial Design, Mechanical Design, Electronic System Design (including Chip/Board and Embedded Software Design), Design Validation Testing, Industrialization and Prototyping. IT Enabled Services are services that use telecom networks or the Internet. For example, Remote Maintenance, Back Office Operations, Data Processing, Call Centres, Business Process Outsourcing, etc. IT sector is attracting considerable interest not only as a vast market but also as potential production
