## Chairman's Communique

Dear Shareowners,

It gives me immense pleasure addressing you once again at the end of another year. I do believe that you would be pleased with the performance of your company as reported in the accompanying annual report, as it has made steady progress yet again. I hope that your trust in the company and its potential, which has grown over the years, will also remain in times to come. I would like to explicitly thank everyone associated with the company who has helped in delivering such performance.

Industries worldwide are occupied with the question of how growth can be ensured while conserving the valuable natural resources. For decades, Voith has been persistently offering pragmatic solutions to the problems faced by paper manufacturing mills by following the maxim "Resources are limited, Ideas are not".

Globally, 400 Million tonnes of paper is needed annually at present; and by 2025 this number is predicted to increase to 500 Million tonnes. Thus, global demand for paper continues to be strong with the increasing literacy rate & population coupled with anticipated economic growth. This is a good sign for the future of your company as well.

India's current per capita consumption of paper is considerably low vis-à-vis the developed economies in the world. However, with keen focus of the Government of India to provide education to every child, it is expected that there would be an increase in literacy rate and growth in the per capita consumption of paper. Also, for the purpose of conservation of environment, government is gradually imposing ban on the use of plastic bags as a means to carry goods from local markets, which is expected to increase the consumption of paper.

Thus, with increasing population and the diversified usage of paper, growth in the global as well as Indian paper industry is unlikely to slow-down in coming years. However, Indian economy has grown at a lower than expected rate in the year 2012. The element of economic & political uncertainty is still prevailing in many parts of world and this threat remains a disturbing factor for future of Indian economy as well. The political situation in India also appears to be somewhat unstable and this is a matter of concern for all those who are doing business in the region.

The paper industry in India also faces challenges in terms of liquidity, cost pressures, deeper penetration of electronic media and environmental regulations prevailing in the region. However, we believe that we have a proven and consistent track record to perform satisfactorily even in challenging environment. Hence, I am confident that we shall continue to grow as we move forward with valuable patronage from all concerned.

I look forward to meet you at the 43<sup>rd</sup> Annual General Meeting of your company.

With best wishes for a promising future, together!

**Martin Gustav Scherrer**

Chairman
