DIVIDEND

During the year under review, the operations of the Company were severely impacted for various reasons explained under the head 'Business Operations'. In view of the adverse financial results, no dividend has been proposed on the Equity Shares.

However, in order to meet the contractual commitments, the Directors recommend payment of dividend on the Preference Share Capital at the contracted rates out of the available reserves in terms of Companies (Declaration of Dividend out of Reserves) Rules, 1975 aggregating to Rs.9.27 million on the Cumulative Redeemable Preference Shares at the contracted rates. This dividend, together with the distribution-tax/education cess thereon, has been provided for in the accounts.

BUSINESS OPERATIONS

The Company operates in two business segments namely (a) Insulators and (b) Turnkey Projects. The net sales from Insulator business for the year was Rs.2122.67 million as against Rs.1764.59 million made in the previous year resulting in a growth of 20% in value terms. Our second unit, located in the Special Economic Zone at Visakhapatnam, is now stabilizing its operations but operated at a low capacity utilization through out the financial year.

The Turnkey Projects Division achieved a turnover of Rs.408.69 million in the current financial year as against Rs.411.03 million for the previous year.

The year was marked by several adverse factors both on the production and commercial fronts. The market, both in India and overseas, saw reduction in prices due to intense competition. The overall reduction in export demand for Indian Insulator industry due to Chinese competition was further aggravated by the diversion of that capacity in to the domestic market. Added to this, direct competition from China also in the Indian market resulted in substantial reduction in selling prices. The operations faced continuing inflationary trend in cost of raw materials and components. Runaway increase in crude prices also impacted the energy cost significantly. Consequent to the power cut imposed by the State utility, the Company had to rely heavily on the expensive third party and self generated power in order to meet its energy requirements.

All these factors have resulted in the Company incurring net loss of Rs.27.93 million for the year under review.

Detailed analysis of the Company's performance during the year as well as the T&D Sector is provided in Annexure D to this Report.

Other Income includes Rs.387.19 million being the profit arising on transfer of 31,000 Equity Shares of Rs.10/- each held by the Company in its real estate subsidiary to another subsidiary of your Company.

RECOGNITION

Your Directors are pleased to inform that the Company continues to enjoy the status of Export House and recognition as an approved R&D Unit.

CAPITAL EXPENDITURE PROGRAMME

The Company continues to upgrade its manufacturing facilities at its Chennai factory in a phased manner with refurbishment and addition of new equipment as appropriate. The CAPEX Programme initiated by the Company during the year is mainly focused on capacity addition for high end Insulators and for improving process efficiency.

As stated in the previous report the Subsidiary Company W.S. Electric Limited (WSE) continues to receive rental income from the Lessees regularly in terms of the lease agreements with them. The arbitration proceeding, initiated by WSE's joint developer, is in the final stages of completion.

FUTURE PROSPECTS

The Company's order book presently stands at Rs.1689 million. The Company is taking vigorous steps to restore profitability of operations as explained in detail in Annexure D to this Report. With the thrust given to the Power Sector in the 12th Plan, as well as the activities taking place in the construction, rehabilitation and upgradation of electricity networks in many parts of the world, the demand for our Company's products and project capabilities continues to remain vibrant though competitive.
