PERFORMANCE

The financial year 2012-13 continued to witness difficult and competitive business scenario across all business segments of the industry, in tune with the gradual slow down in the Indian economy quarter on quarter, resulting in loss to the company. The Company is mainly engaged into the indigenous and international trading business of commodities. The commodities include various agriculture products and non-agricultural items. Total income of the company has increased to Rs. 1834.73 lacs from Rs. 863.67 lacs in the previous year and the company has incurred a loss of Rs. 36.28 lacs during the year under review.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

A. INDUSTRY STRUCTURE & DEVELOPMENT

The Financial Year 2012-13 Continued to be a challenging year for the world and domestic economy as well as the Company. The global economy, though improved slowly, did not grow to the extent expected at the commencement of the year. The US economy improved, though marginally, driven by the consumer and housing sector, with interest rates continuing to remain at historic lows and the quantitative easing measures at unprecedented highs. Many European countries faced recession with high unemployment, low demand and weakened banking systems. China too experienced slow down in its growth, partly due to weak global demand and partly due to the deliberate move of its government. In India, economic growth fell sharply, touching a decade low, the industrial sector experienced severe slump, the trade and current account deficit reached unprecedented risky levels and the inflation remained stubbornly high during the major part of the

Yash Management & Satellite Ltd.

year, interest rates remained high and capital formation took a severe beating; though, the fiscal deficit remained checked, within budgeted limits.

The above macro factors, especially those prevailing in India, adversely impacted the profit of the Company.

B. OPPORTUNITIES & THREATS

2013 – 2014 is expected to be a growth year for world economy. Growth rate is forecast to hold steady in 2013. Moreover, stage will be set for a modest acceleration of growth in the latter part of the year and during 2014.

Though commodity prices are expected to remain stable, if the economic recovery is not sustained, volatility in prices will tend to erode margins. While cost reduction projects are constantly being undertaken, any uptrend in prices cannot be recovered in the interim. Developing international markets combined with the integration of the acquired entities will be a challenge in the short term.

C. RISKS AND CONCERNS

The current slowdown in the domestic economy is likely to continue but is expected to bottom out. The Government's renewed stated emphasis on pushing the reform agenda and its awareness of the need to revive the economy give us hope that the situation can only improve in the near future. Monetary easing by RBI will likely boost the recovery. However, for our businesses to recover, we will need to see concrete steps and visible outcomes.

D. OUTLOOK

Land issues and delays in environmental and other numerous clearances continue to discourage capital investment resulting in an environment of lower growth. The IIP growth numbers indicate considerable resistance to capital commitment by the manufacturing or industrial sector which arises from structural causes and perhaps may not reverse in the short term even if supported by a more favorable capital cost environment

E. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

Considering the size and nature of activities, the company has adequate internal control system covering both accounting and administrative control. In addition the internal audit is carried out periodically. The management ensuring an effective internal control system so that the financial statements and reports give a true and fair view.

F. HUMAN RESOURCES

The Company's human resource continues to be the valuable asset of the company. The team has remained as committed as ever and produced results that are considered significant.

G. CAUTIONARY NOTE

Certain statements in the "Management Discussion and Analysis" section may be forward looking and are stated as required by applicable laws and regulations. Many factors may affect the actual results, which could be different from what the Directors' envisage in terms of future performance and outlook.
