Forward-looking Statements

In this Annual Report, we have disclosed forward-looking information to enable investors to comprehend our prospects and make informed investment decisions. We periodically make this report and other written and oral statements contain forward-looking statements that set out anticipated results based on the management's plans and assumptions. We have tried, wherever possible, to identify such statements by using words such as 'anticipates,' 'estimates,' 'expects,' 'projects,' 'intends,' 'plans,' 'believes,' and words of similar substance in connection with any discussion of future performance. We cannot guarantee that these forward-looking statements will be realised, although we believe we have made prudent assumptions. The achievement of results is subject to risks, uncertainties, and even inaccurate assumptions. Should known or unknown risks or uncertainties materialise, or underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated, or projected. Readers should bear this in mind. We undertake no obligation to publicly update any forward-looking statements, whether due to new information, future events, or otherwise.

KEY MILESTONES IN OUR JOURNEY

Source: Company information

Note-1: Milestones that happened before Sugar Free and Everyuth hived off from Zydus Lifesciences to Zydus Wellness

OUR PERFORMANCE OVER THE YEARS

Revenues

PERFORMANCE, FY 2022-23

The Company has registered a growth of 12.2% (over the previous Financial Year) in Total Revenue from operations which stood at ₹ 2,25,479 lakhs. Glucon-D and Nycil reported a revival in sales aided by typical summers after two consecutive years of being impacted by the pandemic and continuous marketing support toward driving growth and recruiting new consumers. As a result, these summer season brands were able to regain pre-covid levels of sales. The year witnessed high inflationary pressure across key inputs, due to which the gross margins of the Company contracted during the first three quarters of the Financial Year. However, with appropriate price increases across the portfolio and inflation-stabilizing for crucial inputs (except for milk) in the latter half of the Financial Year, the Company has gradually recovered its gross margin by the end of quarter four. The Company reported a Gross margin of 48.9% of net sales for the year 2023. The elevated inflation levels impacted consumer demands, and the consumers downtraded towards lower price products, especially in the rural areas, during the Financial Year. Demand in urban areas started to improve in the second half of the Financial Year, while rural demand remained muted.

EBIDTA de-grew by 2.2% Y-O-Y to ₹ 33,715 Lakhs

Reported Net profit was up by 0.5% Y-O-Y at ₹ 31,037 Lakhs

Adjusting for exceptional items, the Net profit was up by 3.7% Y-O-Y at ₹ 32,042 Lakhs
