CHAIRMAN'S STATEMENT

The Apparel Export Promotion Council has reported that during 1997-98 there has been a disturbing drop in the earnings of most garment manufacturing Units in the country. Further, there has been only a meagre increase of 3.12% in the garment exports during 1997-98 in dollar terms, which portrays a very gloomy scenario of the country's exports in the Clothing sector.

Despite the above sluggish scenario, the financial year 1997-98 has been extremely successful for your company, which has outperformed the industry once again, both in India and abroad. In fact the fundamentals of the company continue to compare favourably with the best companies in the country, in terms of increase in turnover, profitability, as well as return on net worth. I am happy to draw your attention to the fact that at the close of the year, your company has achieved the distinction of being a Zero-debt company.

We are continuing our consistent endeavour to both, sharpen our competitiveness as well as to, at the same time, further refine the quality of our product. In fact, Quality is a way of life at Zodiac. Zodiac has always aimed at innovation, greater efficiency and constant product upgradation and always believed in maintaining the highest level of quality in every aspect of our business. It is through this commitment to quality that we have gained the trust and goodwill of our customers, suppliers, bankers and the general business community. Further strengthening of both our brands as well as our distribution, to become even more market driven, are our goals going forward.

I, now draw your attention to the performance of the company. Your company has performed extremely well in terms of turnover, registering an increase of 35% as compared to the previous year. The profits have surged to Rs. 5.7 crores as compared to Rs. 4.12 crores in the previous year, registering an increase of around 38%. The Book Value of your company's shares have gone up from Rs. 63.23 in the previous year to Rs. 74.76 for the year under review. The E.P.S. of the company has also increased significantly from Rs. 12.14 in the previous year to Rs. 16.80 for the year under review.

In view of the above consistent outstanding performance of your company, the Board has recommended an increased dividend of 50% on the equity shares for the year under review as against 30% in the previous year, for your approval.

Given this background, I am happy to confirm the obvious assumption that the outlook for the current year is most encouraging. The fundamentals of your company continue to be strong as ever.

As I mentioned to you in my previous address, the wholly owned subsidiary company in Switzerland has enabled your company to increase its exports considerably. It has been successful in providing better service and attention to customers. During the financial year ended 31st December, 1997, the wholly owned subsidiary company has posted a turnover of SFR 498,173 and a
