www.sansco.net --- --- & --- www.reportjunction.com CHAIRMAN'S STATEMENT – 2008-09

The year ended 31st March, 2009 has been most challenging in view of the financial sector meltdown and the consequent slowdown of the economic sector globally, which had an impact, albeit to a lesser extent, on India as well. Clothing exports from India have grown a mere 4.6% in U.S. Dollar terms (India/USD 10 billion, global trade USD 373 billion).

Post September 2008, clothing exports from India have declined each month (excepting January 2009). The provisional figures for the September-March period are USD 5.52 billion v/s. USD 5.90 billion in the corresponding period last year, i.e. a decline of approximately 4.75%. The trend in April 2009 has continued to show a decline (minus 9.71%)

What is of grave concern is that India's share of global trade in clothing has been a mere 2.6%. In January-March 2009, India's export to the EU has stagnated, whereas Bangladesh, Sri Lanka and China have all grown in this market. In case of the US, export from India has declined by 9%, whereas Bangladesh, Indonesia and Vietnam show significant growth. Admittedly, all the competitor countries that have outperformed India have had tremendous and timely support from their respective Governments, which has distorted the situation somewhat for our country. The clothing industry needs to be encouraged by the Government to gain market share by leveraging its strengths, most of which I have familiarised you with over a period of time.

The Government did introduce 2 packages of Duty Concessions, and tax and interest rebates to combat recession, but it was too little, too late.

The Company's strategy has been vindicated, with regard to its de-risking, cost and innovation focused strategy. This has cushioned it from the effects of the worldwide recession, as well as the slowdown (not recession) in India during the second half of the financial year. The profit after tax for the year, albeit lower (standalone Rs. 1,513 lakhs v/s Rs. 2,016 lakhs for the previous year), when looked at in the perspective of the Profit & Loss position of our competitors, both in India as well as globally, reiterates our position.

With the new Government in place, there are hopes that they will partner the industry in re-gaining, and possibly increasing, market share. One hopes that the new Government will:

- Review the rates of Duty Drawback to fully reimburse taxes (including Service Tax) incurred on inputs.
- Exempt Service Tax on those post-manufacturing expenses, which can only be attributable to exports, and which still face frequent considerable challenges in being refunded,
- Address other cost disabilities (such as exemption from State-level Octroi Duty, which has remained only on paper),
- Extend the tenure of the Market Focus Scheme
- Address the Cost of Funds issue by enhancement of the interest rate subvention to make funds available to the industry at international pricing.
- Devise a WTO-compatible tax benefit.
- Institute a Product Development Fund to encourage innovation
- Address infrastructural disabilities.
- Pursue fast track signing of bilateral/multilateral agreements with the EU (and possibly the US)

There are further investments being contemplated in weaving and processing of clothing, which will gain momentum once the Government policy on TUFS is refined. The clothing industry will not be found wanting, should it be provided with encouragement.

The steps I have outlined above should translate into a turnaround for India'a international trade in clothing. Recapturing market share would require a CAGR of 9% plus through to 2015, which is palpable with these steps implemented.

Mr. Deepak Parekh
